

12.5 Optometry

EyeMed is HPN's designated provider for quality comprehensive eye care. **Please confirm member's vision coverage prior to referring patients.** Fee-for-service patients and most insurance plans are also accepted.

LensCrafters provides comprehensive visual examinations that include:

- subjective refraction
- binocularity testing
- biomicroscopy
- dilated ophthalmoscopy
- tonometry

Full-service contact lenses are also provided which includes rigid gas permeable, soft daily wear, soft disposable daily and extended wear, tinted soft contacts and a wide range of special design contact lenses for hard-to-fit patients.

LensCrafters carries a wide variety of frames from inexpensive to high-end designer lines. The optical lab can manufacture any type of spectacle lens including progressive addition no-line bifocals.

Please visit www.lenscrafters.com for locations/hours or to schedule an appointment.
