

Imaging Services

To better serve you and your patients, Radiology asks you to please follow these guidelines when ordering procedures.

All Referral/Orders must be filled out completely to include Date, Patients Name, DOB, Exam type and Diagnosis.

If a Referral has been written for a Cat Scan, Ultrasound, IVP or Fluoro: Some radiology services over \$200.00 may require prior authorization. Exceptions are HPN, SD, and POS. After calling for prior authorization, documentation must be included on referral of Authorization # or “none required.”

The referral can then be created in AR or fax **(304-7403)** to Imaging/Demand Management Department and patients should be instructed to call **877-5390** to schedule their appointment. **Failure to follow the requirements of this referral process will result in a higher out-of-pocket cost to the patient.**

FOR THE FOLLOWING EXAMS:

If you're Provider has given you a handwritten order. Please bring with you at time of exam.

**** FAILURE TO BRING WRITTEN DOCTOR'S ORDERS AT TIME OF EXAM MAY RESULT IN YOUR EXAM BEING RESCHEDULED.**

If an Order has been written for a Mammogram or Breast Ultrasound: Patients can be referred to call Demand Management Department at 877-5390 to schedule their appointment.

If an Order has been written for a Bone Density (DEXA): Patients can be referred to call Demand Management Department at 877-5390 to schedule their appointment.

If an Order has been written for a General X-ray: These can be done at all SMA Imaging clinics. **(No appointments needed)**

Please provide patients with appropriate Imaging Expectation sheets according to exam being requested.
